

**John** 06/10/2021

**@Chris @Pete** Okay the quiz result is done[Sigma-004] (well kinda of) and [Sigma-005] (since we are posting the data from the frontend to the backend). However, we did not merge [SIGMA-004] to the master branch as the task is not fully complete (wherein the quiz items can be moved from one container to container ).

So you guys can start on the myvalues page

**Chris** 06/10/2021

gotcha

ive already started

**John** 06/10/2021

**@Chris @Pete** made a PR, would you guys review it pls
