Action Items

Item:	Assigned to:	Deadline:
1. Discussion with Client, get clear clarification with Leanna for data: <ul style="list-style-type: none">- Currently Tau’s SDG data contains 32 sdg (positive and negative), we need to know if our client can provide the necessary data- Client informs the team that there are no full data set available. Instead, she proposes to focus on the data with Planet.- However, the problem with this, as Chris mentions later on, that we may need to go on the route of using fake data as focusing just on Planet will result to the usage of small data- Half of the data does not exist and is still currently in development.- Sigma may need to reconsider their next steps here.	-	-
