Type of meeting:	Weekly team meeting	
Facilitator:	All	
Note taker:	All	
Timekeeper:	All	

	- All	N/A

Action Items

Topic

All   N/A

✓ **What we have done so far**

- Team presented the current work with the recommendation system working, creation of the dummy share table, not using tau's DB, deployed the applications both the frontend and backend for testing purposes

✓ **The next focus**

- In the future, team should have a whiteboard discussion with Leanna what is different with Tau's database and Sigma's database based on Pete's documentation database

- Leanna prefers to have Tau's database to work with Sigma's work (which is not possible)

- Peter suggests we keep some of the tasks for the next spring and at the same time take in Leanna's suggestion (using her spreadsheet via Tau's work)
